reporting

Sustainable Development Goals

addressed while working in the oleochemical industry

Improving efficiency
along the food value
chain: By-products
sold for animal feed

Helping to scale-up
supply of renewable
energy: By-products sold
for energy purposes

Implementing circular
business models:
By-product sales for
recycling and recovery

Increasing supply chain
resource security and
efficiency: By-product sales
for **recycling and recovery**

Supplying products with
organic and mineral inputs
that replenishing nutrients:
By-products sold for
fertilising purposes

Complementing other
companies with resources
and solutions to achieve
sustainable development:
By-product sales for
recycling and recovery

LET'S TALK ABOUT THE SOLUTION FOR YOUR BY-PRODUCTS
