

Outsourced Management of By-products (OMBP)

The OMBP service programme enables partners to leverage our specialised expertise in by-product management, tailored to meet their specific needs and interests.

360 Solutions
Reducing risk
Increasing returns

Outsourced Management of By-products

An OMBP contract is a long-term partnership that grants partners access to MBP Solutions' vast application knowledge, compliance expertise and global operations. The end result is comprehensive outsourcing of partner by-product management that delivers security in operations, transparency in transactions and best possible by-product revenue.

Benefits the OMBP Service Programme Delivers to You

Security

- Uninterrupted production
- Access to legal compliance expertise
- Complete transparency, including exclusive data on customers and pricing

Revenue Streams

- Optimal sales prices
- Local and world-wide distribution network

Resource optimisation

- Focus on sustainable considerations in delivery
- Minimising waste and reuse of resources
- Turning your by-products into other industries' raw materials

Mutually beneficial engagement

- MBP Solutions is compensated on a commission base.
- Partners have complete access to the MBP Solution by-product expertise - including sales, legal, logistics and quality.

Key success factors for an OMBP contract

Communication

The more information we receive from you, the better we can serve your needs and eliminate barriers to ensure production continuity.

Timely Information

Sharing of product information and potential deviations is essential for sales, logistics and cost optimisation.

Forecasting

As part of our contracted partnership, transparency in annual planning per product stream volume will aid in long-term stream security.

Complete volume management outsourcing

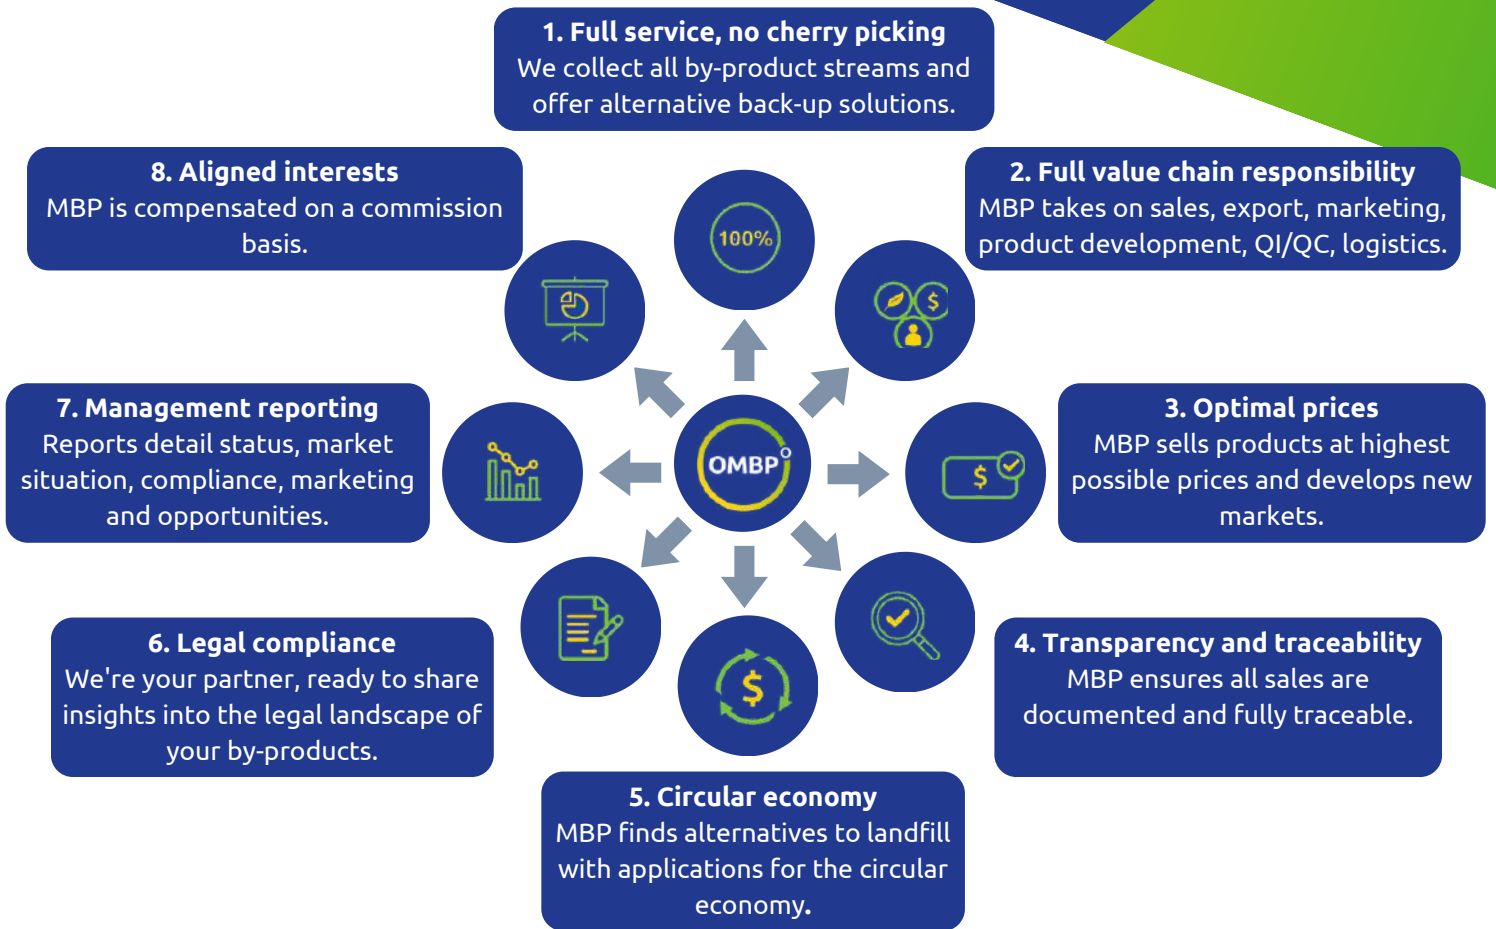

MBP will exclusively manage all streams for contracted products, selling and delivering to appropriate applications. Upon request, our teams will assist in adding new products to the agreement for additional long-term sales and value generation.

MBP Solutions is your by-product expert, dedicated to adding value to by-product processes through sustainable practices, circular economy initiatives and the continual pursuit of innovative solutions to our global network.
