

# Fish Oil EE for Aquafeed

## Highly purified marine oil

Feed grade product sourced from 100% certified and sustainable human consumption fisheries. Ideal for all aquafeed applications.

### DID YOU KNOW?

Recent studies show that inclusion of up to 35% of our Fish Oil Ethyl Esters into the diets of Atlantic Salmon & Rainbow Trout can positively impact:

- ✓ Fish performance (FCR, SGR, CF, etc.)
- ✓ Health
- ✓ Survival
- ✓ Physiology
- ✓ Fillet quality

### PRODUCT BENEFITS

- + Highly purified and low in contaminants
- + Excellent source of essential fatty acids
- + Reduce overall feed costs
- + Extremely low in FFA
- + Blends easily with other oils

### SUSTAINABILITY & QUALITY

- ✓ Highly sustainable
- ✓ By-product from the Omega-3 industry
- ✓ Locally produced
- ✓ Full traceability available
- ✓ Minimal environmental impact

**100%  
FISH ORIGIN**

MBP Solutions is your by-product expert with a high-quality portfolio of ingredients - produced in human grade processing plants - for a variety of aquaculture and agriculture applications.
