

## SUSTAINABLE FEED INGREDIENTS

Sourced from human-grade processing plants, our feed portfolio offers excellent nutritional value for fish, shrimp, pigs, cattle, poultry and horses.

- **Nutritional Excellence:**

Oils, proteins and meals selected for optimal digestibility, good nutritional value and easy handling.

- **Specialty Options:**

Our potato protein and oatmeal are ideal for grain-free formulations and are also a hypoallergenic option.

- **Transparency & Sustainability:**

Full traceability and datasheets available with a commitment to responsible sourcing and transparent supply chains.
